Choosing a Class of Shares to Buy

For the variations applicable to shares offered through specific financial intermediaries, please see Appendix A to this Prospectus – Financial Intermediary Sales Charge Variations (“Appendix A”). All variations described in Appendix A are applied by the identified financial intermediary. Sales charge variations may apply to purchases, sales, exchanges and reinvestments of Fund shares and a shareholder transacting in Fund shares through an intermediary identified on Appendix A should read the terms and conditions of Appendix A carefully. A variation that is specific to a particular financial intermediary is not applicable to shares held directly with the Fund or through another intermediary. Please consult your financial intermediary with respect to any variations listed in Appendix A.

Individual investors can generally invest in Class A and Class C shares. Individual investors who invest directly with a Fund and who meet the \$1,000,000 minimum initial investment requirement may purchase Class I shares. (Individual investors who held Class I shares of the Financial Services Fund prior to November 20, 2006 are permitted to make additional investments in Class I shares.)

Retirement Plan and Institutional Investors and Clients of Eligible Financial Intermediaries should refer to “Retirement and Institutional Investors — eligible investors” below for a description of the classes available to them. Each class has different sales charges and expenses, allowing you to choose a class that may be appropriate for you.

When choosing which class of shares to buy, you should consider:

- How much you plan to invest
- How long you expect to own the shares
- The expenses paid by each class detailed in the fee table and example at the front of this Prospectus
- Whether you qualify for any reduction or waiver of sales charges
- Availability of share classes

When choosing between Class A and Class C shares, you should be aware that, generally speaking, the larger the size of your investment and the longer your investment horizon, the more likely it will be that Class C shares will not be as advantageous as Class A shares. The annual distribution and service fees on Class C shares may cost you more over the longer term than the front-end sales charge and service fees you would have paid for larger purchases of Class A shares. If you are eligible to purchase Class I shares, you should be aware that Class I shares are not subject to a front-end sales charge and generally have lower annual expenses than Class A or Class C shares.

The Socially Responsive Fund no longer offers Class B shares for purchase by new or existing investors. Individual investors who owned Class B shares on June 30, 2011, may continue to hold those shares, but they may not add to their Class B share positions except through dividend reinvestment.

Each class of shares is authorized to pay fees for recordkeeping services to Financial Intermediaries (as defined below). As a result, operating expenses of classes that incur new or additional recordkeeping fees may increase over time.

You may buy shares:

- Through banks, brokers, dealers, insurance companies, investment advisers, financial consultants or advisers, mutual fund supermarkets and other financial intermediaries (each called a “Financial Intermediary”). An investment in the Funds is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.
- Directly from the Funds

Your Financial Intermediary may provide shareholder services that differ from the services provided by other Financial Intermediaries. Services provided by your Financial Intermediary may vary by class. You should ask your Financial Intermediary to explain the shareholder services it provides for each class and the compensation it receives in connection with each class. Remember that your Financial Intermediary may receive different compensation depending on the share class in which you invest.

Your Financial Intermediary may not offer all classes of shares. You should contact your Financial Intermediary for further information.

Fund imposed sales charges and waivers include the following:

- Front-end sales charges that apply to the purchase of Class A shares
- Contingent deferred sales charges that apply to the redemption of Class B shares, Class C shares and certain Class A shares
- Qualifying for lower sales charges on Class A shares
- Qualifying for a sales load waiver

Comparing the Funds’ Classes

The following table compares key features of the Funds’ classes. You should review the fee table and example at the front of this Prospectus carefully before choosing your share class. Your Financial Intermediary can help you choose a class that may be appropriate for you. Class FI and Class R shares are not currently offered. Your Financial Intermediary may receive different compensation depending upon which class you choose.

Sales Charges

You can find information about sales charges and breakpoints on the Funds' website at www.1919funds.com and in the SAI, which is also available on the website free of charge. For the sales charge variations applicable to shares offered through specific financial intermediaries, please see Appendix A.

Class A shares

You buy Class A shares at the offering price, which is the net asset value plus a sales charge. You pay a lower rate as the size of your investment increases to certain levels called breakpoints. You do not pay a sales charge on the Funds' distributions or dividends that you reinvest in additional Class A shares.

The tables below show the rate of sales charge you pay, depending on the amount you purchase. It also shows the amount of broker/dealer compensation that will be paid out of the sales charge if you buy shares from a Financial Intermediary. For Class A shares sold by the Distributor, the Distributor will receive the sales charge imposed on purchases of Class A shares (or any contingent deferred sales charge paid on redemptions) and will retain the full amount of such sales charge. Financial Intermediaries will receive a Rule 12b-1 distribution and service fee payable on Class A shares at an annual rate of up to 0.25% (0.15% for the Maryland Fund) of the average daily net assets represented by the Class A shares serviced by them. These fees are an ongoing expense and, over time, will increase the cost of your investment and may cost you more than other types of sales charges.

¹ A Financial Intermediary may be paid a commission of up to 1.00% for purchase amounts of \$1 million or more. In such cases, starting in the thirteenth month after purchase, the Financial Intermediary will also receive an annual distribution and service fee of up to 0.25% of the average daily net assets represented by the Class A shares held by its clients. Prior to the thirteenth month, this fee is retained on behalf of the Fund. Where the Financial Intermediary does not receive the payment of this commission, the Financial Intermediary will instead receive the annual distribution and service fee starting immediately after purchase. Please contact your Financial Intermediary for more information.

Prior to the thirteenth month, this fee is retained on behalf of the Fund. Where the Financial Intermediary does not receive the payment of this commission, the Financial Intermediary will instead receive the annual distribution and service fee starting immediately after purchase. Please contact your Financial Intermediary for more information.

Investments of \$1,000,000 or more

You do not pay a front-end charge when you buy \$1,000,000 or more of Class A shares. However, if you redeem these Class A shares within 18 months of purchase, you will pay a Contingent Deferred Sales Charge ("CDSC") of 1.00%. Any CDSC is based on the original cost of the shares or the current market value, whichever is less.

Qualifying for a reduced Class A sales charge

There are several ways you can combine multiple purchases of Class A shares of the Funds to take advantage of the breakpoints in the sales charge schedule. In order to take advantage of reductions in sales charges that may be available to you when you purchase Fund shares, you must inform your Financial Intermediary or the Fund if you are eligible for a letter of intent or a right of accumulation and if you own shares of other Funds that are eligible to be aggregated with your purchases. Certain records, such as account statements, may be necessary in order to verify your eligibility for a reduced sales charge.

- *Rights of Accumulation ("ROA")* – You may combine your new purchase of Class A shares with Class A shares you currently own for the purpose of qualifying for the lower front-end charge rates that apply to larger purchases. The applicable sales charge for the new purchase is based on the total of your current purchase and the current value, calculated using the current day public offering price of all other shares you own. You may also combine the account value of your spouse and children under the age of 21. Only the shares held at the intermediary or the transfer agent at which you are making the current purchase can be used for the purposes of a lower sales charge based on Rights of Accumulation.

If you hold Fund shares in accounts at two or more Financial Intermediaries, please contact your Financial Intermediaries to determine which shares may be combined.

Certain trustees and other fiduciaries may be entitled to combine accounts in determining their sales charge.

- *Letter of Intent ("LOI")* – By signing an LOI you can reduce your Class A sales charge. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period. The LOI will apply to all purchases of 1919 Funds Class A shares. *Any shares purchased within 90 days of the date you sign the letter of intent may be used as credit toward completion, but the reduced sales charge will only apply to new purchases made on or after that date.* Purchases resulting from the reinvestment of dividends and capital gains do not apply toward fulfillment of the LOI. Shares equal to 5.75% of the amount of the LOI will be held in escrow during the 13-month period. If, at the end of that time the total amount of purchases made is less than the amount intended, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual purchases had the LOI

not been in effect. This amount will be obtained from redemption of the escrow shares. Any remaining escrow shares will be released to you.

If you establish an LOI with 1919 Funds you can aggregate your accounts as well as the accounts of your spouse and children under age 21. **You will need to provide written instruction with respect to the other accounts whose purchases should be considered in fulfillment of the LOI. Only the accounts held at the financial intermediary or the Transfer Agent at which you are making the purchase can be used toward fulfillment of the LOI.**

- *Reinstatement Privileges* – If you sell Class A shares of a Fund and withdraw your money from that Fund, you may reinstate into the same account, within 365 days of the date of your redemption, without paying a front-end sales charge *if you paid a front-end sales charge when you originally purchased your shares*. For purposes of a CDSC, if you paid a CDSC when you sold your shares, you would be credited with the amount of the CDSC proportional to the amount reinvested. Reinstated shares will continue to age, as applicable, from the date that you bought your original shares. *This privilege can be used only once per calendar year per account*. Contact your financial intermediary, or for direct shareholders, call the Transfer Agent at 1-844-828-1919, for additional information.

You must identify and provide information to the Fund or your financial intermediary, as applicable, regarding your historical purchases and holdings, and you should also retain any records necessary to substantiate historical transactions and costs because the Funds, their transfer agent, and financial intermediaries will not be responsible for providing this information.

For the sales charge variations applicable to shares offered through specific financial intermediaries, please see Appendix A.

Waivers of front-end charges for certain Class A investors

Class A front-end charges are waived for the following types of investors, including:

- Investors purchasing shares directly through the Fund
- Employees of Financial Intermediaries
- Those who qualify for the Reinstatement Privilege as discussed above
- Trustees and officers of any 1919 Investment Counsel -sponsored fund
- Employees of 1919 Investment Counsel and its subsidiaries
- Investors investing through eligible Retirement Plans as defined under “Retirement and Institutional Investors – Eligible Investors”, “Retirement Plans” section below
- Investors who rollover fund shares from a qualified retirement plan into an individual retirement account administered on the same retirement plan platform
- Purchases by separate accounts used to fund unregistered variable annuity contracts
- Purchases by shareholders who have redeemed Class A shares in the Fund (or Class A shares of another Fund sold by the Adviser that is offered with a sales charge) and who wish to reinvest their redemption proceeds in the Fund as described in “Qualifying for a reduced Class A sales charge,” “Reinstatement Privileges” section of the Prospectus, provided the reinvestment is made within 365 calendar days of the redemption
- Purchases by investors participating in “wrap fee” or asset allocation programs or other fee-based arrangements sponsored by broker/dealers and other financial institutions

- Purchases by direct retail investment platforms through mutual fund “supermarkets,” where the sponsor links its client’s account (including IRA accounts on such platforms) to a master account in the sponsor’s name

If you qualify for a waiver of the Class A front-end sales charge, you must notify your Financial Intermediary or the Funds at the time of purchase and provide sufficient information at the time of purchase to permit verification that the purchase qualifies for the front-end charge waiver. For the sales charge variations applicable to shares offered through specific financial intermediaries, please see Appendix A.

Class B shares

The Socially Responsive Fund no longer offers Class B shares for purchase by new or existing investors. If you owned Class B shares of the Fund on June 30, 2011, you may continue to hold those shares, but you may not add to your Class B share position except through dividend reinvestment. Class B shares are issued at net asset value with no front-end charge. If you redeem your Class B shares within five years of your purchase payment, you will pay a contingent deferred sales charge based on the schedule of the Fund that you originally purchased. The contingent deferred sales charge decreases as the number of years since your purchase payment increases.

Year after purchase	1st	2nd	3rd	4th	5th	6th through 8th
Contingent deferred sales charge (%)	5	4	3	2	1	0

The Socially Responsive Fund pays annual distribution and service fees of up to 1.00% of the average daily net assets of Class B shares. Financial Intermediaries receive an annual distribution and service fee of up to 0.25% of the average daily net assets represented by the Class B shares serviced by them.

Class B conversion

After approximately 8 years, Class B shares automatically convert into Class A shares. This helps you because Class A shares have lower annual expenses. Your Class B shares will convert to Class A shares as follows:

Shares issued: at initial purchase	Shares issued: on reinvestment of dividends and distributions	Shares issued: upon exchange from another fund managed by the Adviser
Approximately 8 years after the date of purchase	In same proportion as the number of Class B shares converting is to total Class B shares you own (excluding shares issued as dividends)	On the date the shares originally acquired would have converted into Class A shares

Class C shares

Class C shares may be purchased only through financial intermediaries. Class C shares of the Funds are offered without a front-end charge. This means that 100% of your initial investment is placed into shares of the applicable Fund. Class C shares pay up to 1.00% on an annualized basis of the average daily net assets as reimbursement or compensation for shareholder servicing and distribution-related activities with respect to the applicable Fund. Over time, fees paid under the distribution and service plans will increase the cost of a Class C shareholder’s investment and may cost more than other types of sales charges. Additionally, investors are subject to a contingent deferred sales charge of 1.00% for Class C shares if shares are redeemed within 12 months after purchase. Any applicable CDSC is based on the lesser of the original purchase cost or the current market value of the shares being redeemed. The minimum initial investment for Class C Shares is \$1,000 and the subsequent investment minimum is \$50. No order for Class C Shares of any Fund may exceed \$1,000,000.

Financial Intermediaries selling Class C shares generally are paid a commission of up to 1.00% (0.75% for the Maryland Fund) of the purchase price of the Class C shares they sell. The contingent deferred sales charges and an annual Rule 12b-1 distribution and service fee of up to 1.00% (0.70% for the Maryland Fund) of the

average daily net assets represented by the Class C shares serviced by these Financial Intermediaries is retained on behalf of the applicable Fund until the thirteenth month after purchase. Starting in the thirteenth month after purchase, these Financial Intermediaries will receive an annual Rule 12b-1 distribution and service fee of up to 1.00% (0.70% for the Maryland Fund) of the average daily net assets represented by the Class C shares serviced by them.

Reinstatement Privileges – If you sell (redeem) Class C shares of a Fund and withdraw your money from a Fund, you may reinstate into the same account, within 365 days of the date of your redemption, without paying either a front-end sales charge *if you paid a front-end sales charge when you originally purchased your share* or a CDSC if you paid a CDSC when you sold your shares. For purposes of the CDSC, you would be credited with the amount of the CDSC proportional to the amount reinvested. Reinstated shares will continue to age, as applicable, from the date that you bought your original shares. *This privilege can be used only once per calendar year per account.* Contact your financial intermediary, or for direct shareholders, call the Transfer Agent at 1-844-828-1919, for additional information. You must identify and provide information to the Fund or your financial intermediary, as applicable, regarding your historical purchases and holdings, and you should also retain any records necessary to substantiate historical transactions and costs because the Funds, their transfer agent, and financial intermediaries will not be responsible for providing this information.

Class FI and Class R shares (not currently available for purchase)

You buy Class FI and Class R shares at net asset value with no front-end charge and no contingent deferred sales charge when redeemed.

Financial Intermediaries receive an annual distribution and service fee of up to 0.25% of the average daily net assets represented by Class FI shares serviced by them, up to 0.50% of the average daily net assets represented by Class R shares serviced by them.

Class I shares

You buy Class I shares at net asset value with no front-end charge and no contingent deferred sales charge when redeemed. Class I shares are not subject to any distribution and service fees.

Contingent Deferred Sales Charges

The contingent deferred sales charge is based on the net asset value at the time of purchase or redemption, whichever is less, and therefore you do not pay a sales charge on amounts representing appreciation or depreciation.

In addition, you do not pay a contingent deferred sales charge:

- When you exchange shares for shares of another 1919 Fund
- On shares representing reinvested distributions and dividends
- On shares no longer subject to the contingent deferred sales charge

Each time you place a request to redeem shares, the Funds will first redeem any shares in your account that are not subject to a contingent deferred sales charge and then redeem the shares in your account that have been held the longest.

If you redeem shares of a Fund and pay a contingent deferred sales charge, you may, under certain circumstances, reinvest all or part of the redemption proceeds within 60 days and receive pro rata credit for any contingent deferred sales charge imposed on the prior redemption. Please see “Reinstatement Privileges” section above.

1919ic receives contingent deferred sales charges as partial compensation for its expenses in selling shares, including the payment of compensation to your Financial Intermediary.

Contingent deferred sales charge waivers

The contingent deferred sales charge for each share class will be waived:

- On payments made through certain systematic withdrawal plans
- On distributions from eligible Retirement Plans as defined under “Retirement and Institutional Investors – Eligible Investors”, “Retirement Plans” section below.
- On redemptions in connection with lump-sum or other distributions made by eligible retirement plans or redemption of shares by participants in certain “wrap fee” or asset allocation programs sponsored by broker/dealers and other financial institutions that have entered into agreements with the Distributor or the Adviser
- For Retirement Plans with omnibus accounts held on the books of the Funds
- For involuntary redemptions of small account balances
- For 12 months following the death or disability of a shareholder (as defined in the Internal Revenue Code of 1986, as amended) (the “Code”)
- For mandatory post-retirement distributions from retirement plans or IRAs
- For tax-free returns of an excess contribution to any retirement plan

To have your contingent deferred sales charge waived, you or your Financial Intermediary must let the Funds know at the time you redeem shares that you qualify for such a waiver.
